

VOLVO P1800

Front apron / front valance

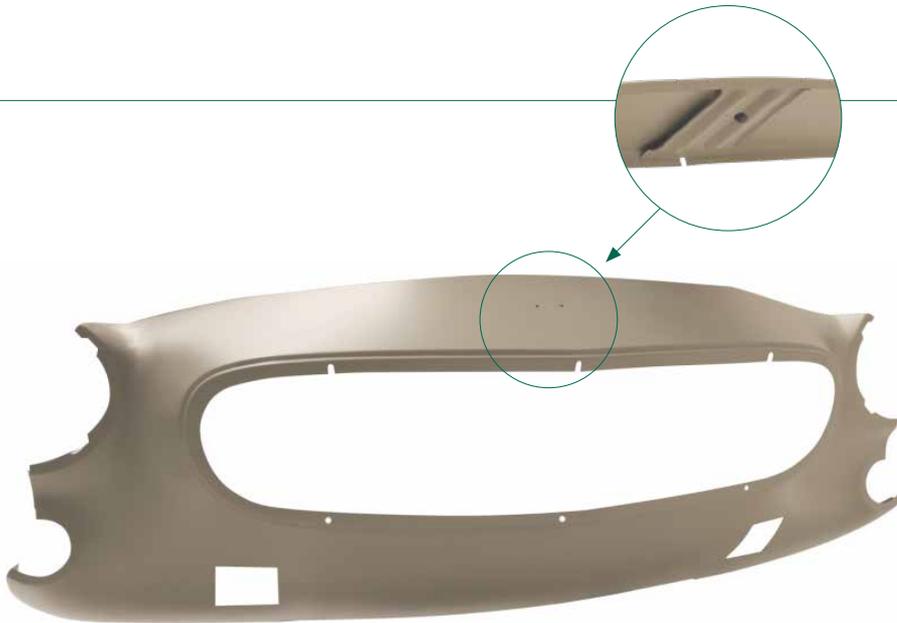

We are expanding our product range of chassis parts for the P1800. A reproduction true to the original of the front apron / front valance with a quality that corresponds to the original is now available.

The front valance is made of deep-drawn galvanized metal and has a high-quality primer. It convinces with an ideal fit and has all the needed recesses to fit the radiator grille. What is more, the reinforcement at the top inside, seen in the detailed view, is part of the front valance.

- » with a high-quality primer
- » made of deep-drawn galvanized steel
- » quality corresponds to the original
