

AUSTIN HEALEY BN4-BJ8

Lower conversion gasket set

We are expanding our BASTUCK Classic product range for the Austin Healey BN4-BJ8 and we have a good reason to do so: The gasket set which is mounted on the bottom part of the motor, has been an issue for a period of time. Especially the fitting accuracy has been often criticised.

So, we have reproduced the gasket set true to the original and put the emphasis on the fitting accuracy. You can order the gasket set in the usual BASTUCK quality at a reasonable price now in our shop.

- » sophisticated new development in BASTUCK quality
- » best fitting accuracy
- » well-balanced price-performance ratio
