

BASTUCK CLASSIC PRODUCT INFORMATION

EDITION 45/19 | 07.11.2019

VOLVO P1800, 164, 140

Flexible steering column coupling

On classic P1800, 164 and 140, the coupling on the steering has often been a liability. So, we optimized and reinforced it. For that, we used a high-quality EPDM-rubber with an aramid inlay.

We now have the coupling available in a practical set with allen screws and nuts.

- » reinforced and improved BASTUCK version
- » high-quality EPDM rubber with aramid inlay
- » comes in a practical set with allen screws and nuts
