TRIUMPH TR4 / TR4A

Front valance KA1ATR4 and KA1ATR4A

The misery concerning front valances for TR4 and TR4A models finally comes to an end. We now provide front valances, which comply with the quality and fit of the original stanpart articles.

The front valances are made of deep-drawn galvanized metal and have a high-quality primer.

Due to our specially constructed tools we have succeeded in creating these front valances that are high-quality replacement for the front valances, which were lately no longer available and low in quality.

» perfect fit in original equipment quality

» replacement for parts no longer available on the market

» manufactured with new, specially constructed tools
