AUSTIN HEALEY BN4-BJ8

Aluminium oil sump M100AH

With the Big Healeys the original sheet metal oil sump is a weak point and many owners know the problem: The oil sump is dented so that there is a risk of tearing.

That is why we took up the issue and developed a reinforced aluminium oil sump that fits the Austin Healey BN4-BJ8 perfectly. It not only prevents denting, but also stiffens the entire engine block. In addition, the additional cooling fins ensure optimum heat dissipation and thus also a lower oil temperature. To prevent the oil from moving uncontrolled, the oil sump has cast-in oil spill webs. As a result, the oil pump does not draw any air even when driving in a sporty style.

The mounting procedure is simple: only the oil sump gasket MD18AH and the fitting kit M100AH/FK are necessary.

- » **stiffens the engine block considerably**
- » **better heat dissipation**
- » **with cast-in oil spill webs**

M100AH

Article No.	Description	Price EUR
M100AH (Ref. No. *: AEC203-AL)	Aluminium oil sump 100/6-3000	339,30
M100AH/FK (Ref. No. *: M100AH/FK)	Fitting kit for aluminium oil sump M100AH	9,13
MD18AH (Ref. No. *: CHC005 / GEG524 / AEC205)	Oil sump gasket	8,96
