

## BASTUCK CLASSIC PRODUCT INFORMATION

EDITION 37/20 | 09.09.2020

### TRIUMPH TR4, TR4A, TR5, TR250, TR6

#### Boot floor

In recent years, the only thing that has been available from England is a more or less perfectly fitting, universal boot floor for Triumph TR4-TR6 vehicles. In order to guarantee a restoration of the vehicles true to the original, we decided to produce the floor panels in design and appearance like the serial parts. In addition, we use high-quality, galvanised deep-drawn sheet metal as the basis for production, so that corrosion is almost impossible. All the required holes and fixing nuts are also available.

- » made from galvanised deep-drawn metal sheet
- » high-quality ground coat
- » perfectly fitting and easily mountable
- » parts correspond to the OEM original parts in every aspect
