

## BASTUCK CLASSIC PRODUCT INFORMATION

EDITION 41/20 | 06.10.2020

### VOLVO PV444 / PV544

#### REAR END PLATE

Anyone who restores his Volvo Buckel (PV444 and PV544) knows the replica plates, which are not very convincing nor always available, still present on the spare parts market today.

This is reason enough for us to produce new and high-quality tools for the rear panel of the Volvo Buckel (PV444 and PV544). They make it possible that the BASTUCK rear plates are of the same quality as the original Volvo plates. Furthermore, the BASTUCK rear end plates are provided with all necessary cut-outs and drillings. In order to give the rust no chance, we have made them from galvanised deep-drawn sheet metal and additionally primed them with a high-quality primer.

- » from galvanised deep-drawn metal sheet
- » with a high-quality primer
- » perfect fit
