

## BASTUCK CLASSIC PRODUCT INFORMATION

EDITION 43/20 | 20.10.2020

### TRIUMPH TR4-6

#### FAN FLAP

Ordering a fan flap for the Triumph TR 4-6 was not possible worldwide in the past two years. To remedy this situation BASTUCK now manufactures the fan flaps (article no. KA16TR4) themselves.

The high-quality BASTUCK reproductions correspond to the original stand type parts down to the smallest detail. The basic material used is high-quality galvanized deep-drawn sheet metal, which is additionally coated with a high-quality primer after the hinge has been fitted. The fitting accuracy of the newly manufactured parts makes them particularly easy to install.

BASTUCK recommendation: replace the seal under the fan flap (R16TR6) at the same time. This seal is available as an exact replica of the original seal.

- » high-quality reproduction
- » made of galvanized deep-drawn sheet metal
- » high fitting accuracy and easy to mount
