

### TRIUMPH TR6

## INNER MUDGUARDS FRONT LEFT AND RIGHT

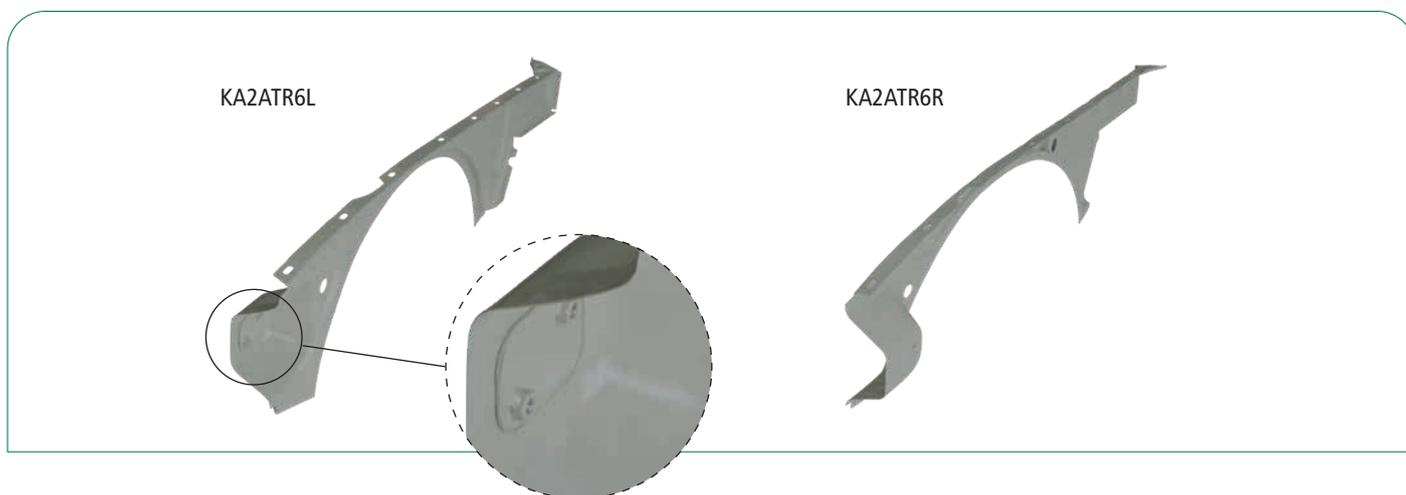

The misery regarding inner mudguards for TR6 models has finally come to an end: BASTUCK inner mudguards are now available that match the quality and fit of the original Stanpart parts.

The inner mudguards are made of galvanised deep-drawn sheet metal and have been given a high-quality primer coat. The mounts for the bonnet hinges are already mounted as a fixed part.

With our specially manufactured tools, we have succeeded in creating a high-quality replacement for the inner mudguards, which are no longer acceptable in terms of quality and have not been available for some time.

- » finally available again
- » made of galvanised deep-drawn sheet metal
- » quality according to the original Stanpart parts
