TRIUMPH TR6

FRONT BUMPER CHROME FINISH

Getting good quality bumpers for a Triumph TR6 has been a problem for many years. In order not to have to do without a high-quality bumper when restoring his vehicle, we have reproduced the bumpers true to detail with a new steel press tool.

The BASTUCK bumpers have a high-quality chrome finish, and the insides are additionally painted to protect against corrosion. The bumpers are available in two versions: Without indicator cut-outs (S42TR) and with integrated indicator cut-outs (S42aTR) for the USA model.

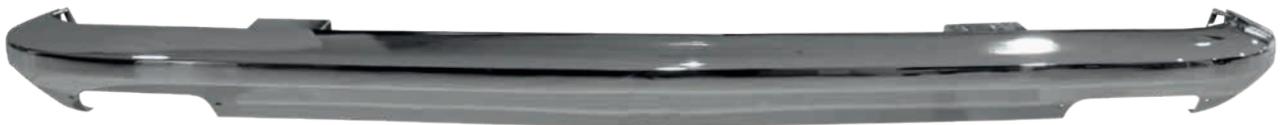

- » Finally available again
- » Perfect fit
- » Quality corresponding to the original Stanpart parts

S42TR

S42aTR
