#### SET AIR DEFLECTORS THREE PARTS

A high-quality set completes our product range for classic Volvo P1800 S/E/ES. The air deflectors are available as a three-piece set as well as individually and the highlight is: The BASTUCK deflectors are better than the original air deflectors. They fit perfectly and are of excellent quality, because they are made of galvanised deep-drawn sheet metal and are also primed to a high standard.

In addition to the air deflectors, the cover for closing the centre air intake is also available from us (KA10AVOP1800).
