

BASTUCK CLASSIC PRODUCT INFORMATION

EDITION 42/22 | 21.10.2022

VOLVO PV444, PV544

REPAIR PANEL, REAR LEFT AND RIGHT SIDE

For a long time, the repair panels for the rear left and right-hand side panels for the Volvo humpback (PV444, PV544) were not available. If you are currently restoring your classic car or are planning a restoration, you can now use the new BASTUCK repair panels for the rear side panels.

They are of better quality than the original ones, which is possible thanks to the use of new and high-quality tools that we have had specially manufactured. As lovers of classic cars, we know how important it is that the spare parts fit perfectly, so we have paid special attention to this.

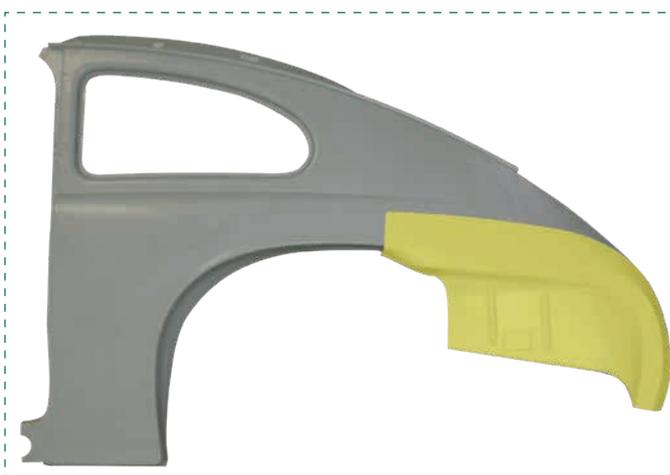

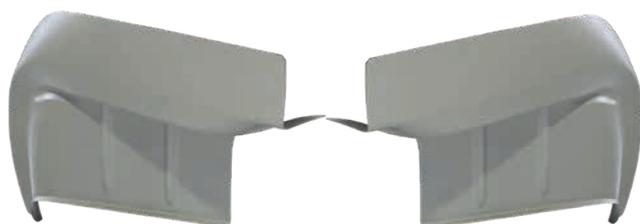

To give rust no chance, we have made them from galvanised deep-drawn sheet metal and also given them a high-quality primer coat.

- » **made of galvanised deep-drawn sheet metal**
- » **high-quality primed**
- » **perfect fit**
