EDITION 50/22 | 15.12.2022

### JAGUAR E-TYPE SERIE 1 4.2

#### HIGH-PERFORMANCE RADIATOR

We now have a new high-performance radiator for the Jaguar E Type Series 1 4.2 in our product range. For a long time, the quality of the radiators on the market was not convincing, and in some cases, they were not even available. Therefore, we decided to rebuild the radiator with new tools.

The part will convince you with its excellent quality and its design, which is an exact copy of the original. We have optimised the radiator by using a particularly close-meshed copper network, which gives us at least 30% more cooling capacity than the original radiator.

- » **At least 30% higher cooling capacity compared to the original part**
- » **Original look**
- » **Attractive price**
