### VOLVO PV445/P210 (DUETT)

#### RETAINING BRACKET FOR LEAF SPRINGS

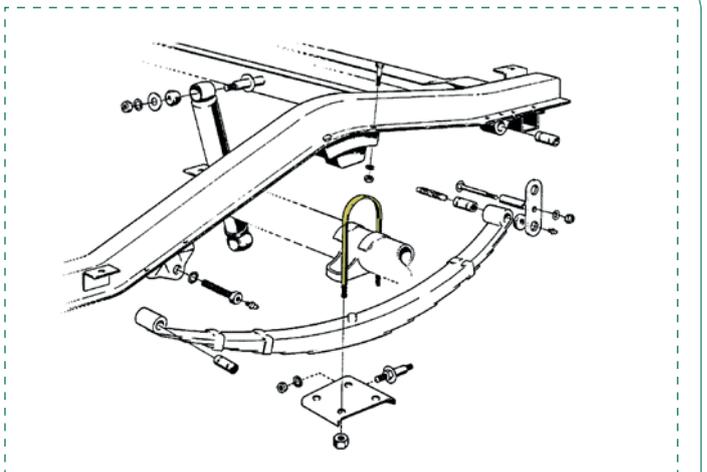

Like many other items in our CLASSIC range, we have reproduced the retaining bracket for the leaf springs for Volvo PV445/P210 (Duett), thus further supplementing our range.

As classic car enthusiasts, we are particularly concerned with high quality and accuracy of fit and so we have had the retaining brackets forged from high-quality steel, after which they were hardened and tempered and galvanised. They are therefore also characterised by a particularly high level of strength.

- » Forged from high quality steel
- » Quenched and tempered
- » Finally galvanised
