

BASTUCK CLASSIC PRODUCT INFORMATION

EDITION 39/23 | 27.09.2023

VOLVO PV444, PV544

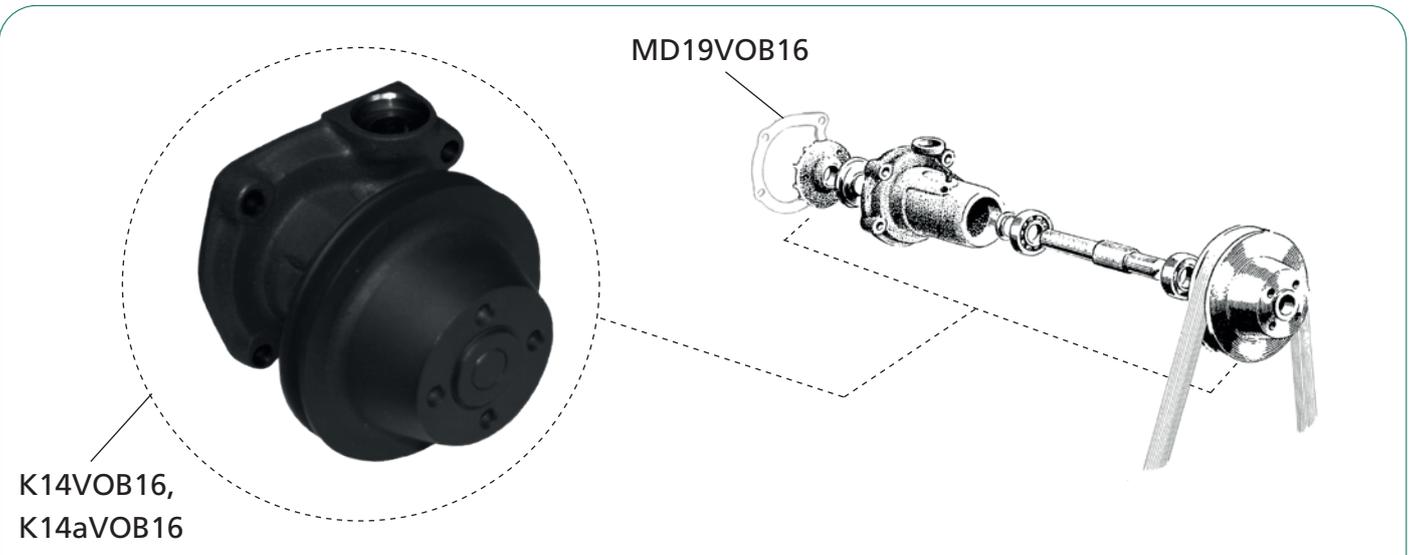

WATER PUMPS

When refurbishing a classic Volvo, the water pump has always been a nuisance over the years. The few items available were either overpriced or of inferior quality. For us, this was reason enough to remanufacture the water pumps for the Volvo B16.

For this purpose, we manufactured our own casting tools, which guarantee long-term availability of the parts on the market. In addition, we have decided to use only high-quality bearings and sealing packages, so that there is a clear increase in quality compared to the parts available on the market today.

- » finally available again permanently
- » manufactured with high-quality casting tools
- » high quality, attractive price

Art.-no.	Name	Price EUR
K14VOB16 (Ref. No*: 403348)	Water pump B4B/B14 (PV444, PV544)	97,90€
