BASTUCK CLASSIC PRODUCT INFORMATION

EDITION 43/24 | 24.10.2024

TRIUMPH TR4, TR4A, TR5, TR250 AND TR6

DASHBOARD UPPER SECTIONS

Triumph enthusiasts are familiar with it: cracked and burst dashboard tops due to strong sunlight. A nuisance - and for visual reasons alone, a replacement is then unavoidable. However, until now you have had to make do with expensive and poor-quality spare parts from Australia, which means you are bound to get into trouble again.

We are also familiar with this issue and have therefore decided to put an end to the misery. Using new tools, we have professionally reproduced the dashboard upper parts true to the original and are absolutely satisfied with the quality: Our BASTUCK dashboard upper parts are made of vinyl with a deep-drawn outer skin and have a foamed inner part. As a result, they impress with their precision fit, first-class workmanship, and perfect surface.

The dashboard tops are available with or without an ashtray cut-out.

- **high quality, attractive BASTUCK price**
- **reproduced with newly manufactured moulds**
- **deep-drawn vinyl outer skin, foamed inner part**
