

BASTUCK PRODUCT INFORMATION

EDITION 08/20 | 20.02.2020

Audi S4 B9 and S5 F5 2016 onwards

SPORTS EXHAUST SYSTEM

The Audi S4 B9 and the Audi S5 F5 come as sporty as ever and that was the reason for us to develop an equally sporty stainless-steel exhaust system. In addition to the sports exhaust system for the Audi A4 and the Audi A5, this system now complements our product range for Audi models.

We also included the sporty features and have chosen adequate sporty tailpipe variants. Besides the „Quattro E“ tailpipes (rear silencer with double tailpipe LH+RH 2x Ø 90 mm, with inwards curl, cut obliquely at 20°) there is also the „Quattro RACE Carbon“ tailpipe variant (rear silencer with carbon fibre double-tailpipe LH+RH 2x Ø 90 mm, with RACE look) available.

The complete system behind catalyst consists of two adaptors, one front link pipe and the rear silencer. The original actuator and the original exhaust flap control are used with the rear silencers. It is only possible to mount the complete system.

The sporty look of our BASTUCK sports exhaust systems is as usual matched by a deep and sonorous sound. The package is rounded up by a performance augmentation. For the Audi S4 B9 the latter is 13.1 KW and 4.6 NM *) in comparison to the original system.

- » performance augmentation for the Audi S4 B9 by 13.1 KW and 4.6 NM *)
- » complete system behind catalyst with ECE homologation
- » rear silencer for original exhaust flaps

Hinweis:

Eine Verwendung des Endschalldämpfers alleine ist nicht möglich. Es kann nur die Komplettanlage montiert werden.

Remarque:

Le silencieux arrière ne peut pas être monté seul. Il est impératif de monter la ligne complète.

Attention:

The mounting of the rear silencer on its own is not possible. The complete system must be mounted.

Nota:

No se puede montar el silenciador trasero individualmente. Sólo es posible montar el sistema completo.
