Renault Twingo 3 Facelift 2019 onwards

SPORTS EXHAUST SYSTEM

In 2019, the French manufacturer Renault presented the completely renewed facelift model of the 3rd generation Twingo. Individual personalization packages make each Twingo unique. In visual and acoustic terms, the new BASTUCK sports exhaust system (with EC approval) provides all the ingredients to make the Renault Twingo 3 Facelift a little eye-catcher.

The sports exhaust system consists of the rear silencer and a connection tube. The rear silencer is available in variants Twin E (single tailpipe LH+RH 1x Ø 76 mm, with lip, 20°obliquely cut) and Quattro S (double tailpipe LH+RH 2x Ø 76 mm, cut obliquely at 20°). For the mounting, a suspension rubber and ana additional support are needed and for the connection to the original system, a fixation kit and a connection tube are needed.

Firstly, we strongly recommend having a look on the BASTUCK YouTube channel. The new [sound file](#) for the Renault Twingo 3 Facelift is uploaded on there, so you can get a first impression of the sound and look of the new sports exhaust system.

We also have the corresponding sports exhaust systems for the model variants [Twingo 3](#) and [Twingo 3 GT](#) (up to 2019) available in our product range.

- » sports exhaust system with EC approval
- » two tailpipe variants available
- » BASTUCK [sound file](#) available

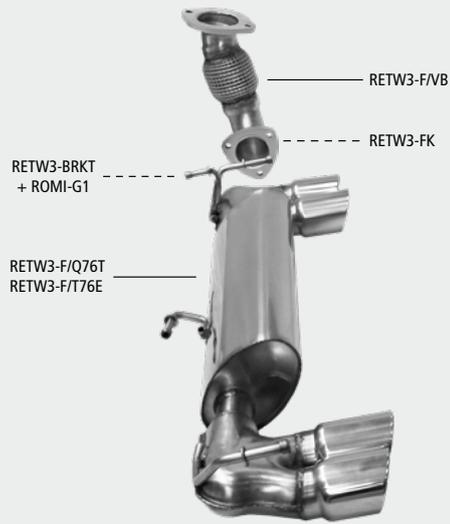

| Renault Twingo 3 Facelift 2019 onwards | Rear silencer + link pipe | Rear silencer with double tailpipe LH+RH 2x Ø 76 mm, cut obliquely at 20° |
