

High-quality body parts for Volvo P1800/S/E/ES

- Perfect fit
- Reproduction true to original
- High-calibre BASTUCK quality

As of now, a sill edge for both the left-hand and the right-hand side further enhances our product range of repair panels for the Volvo P1800 S/E/ES. We are thus completing our range of repair panels for the lower third of the sides of the vehicle. The lower edge of the mudguard on the A-pillar, as well as the outer sill, the repair panel for the mudguard end piece and the now available sill edge are reproductions true to original, which convince especially due to their perfect fit and original equipment quality.
