BASTUCK®

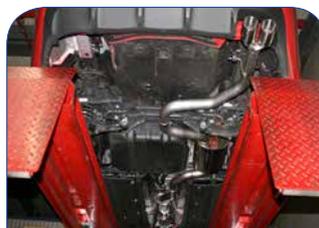

KIA Cee'd JD GT-Line Sportswagon

SPORTS EXHAUST SYSTEM

Our product range for the KIA Cee'd is continuously growing. The design of the GT-Line, inspired by the very sporty KIA Cee'd GT, is now also available for the estate Sportswagon. For this model, a complete system behind catalytic converter is now further enhancing our product range.

The system consists of a front and central silencer as well as a tail pipe set (with double tail pipes 2 x Ø 85 mm RH in RACE look), which perfectly fits the series rear valance and lends a sporty flair to the rear part with its discreet rear diffusor in the bumper below.

Optionally for the KIA Cee'd JD GT-Line Sportswagon, we offer tubes replacing the front and central silencer (each without type approval).

- Complete system behind catalytic converter
- With EG type approval
- Available as well: tubes replacing front and central silencer (without registration)
