EDITION 48/17 | 28.11.17

KIA STINGER 3.3 T-GDI V6

BASTUCK®

## SPORTS EXHAUST

By introducing the new Stinger KIA evokes a real Gran Turismo feeling. It was a pleasure to create a sports exhaust for the Stinger 3.3 T-GDI V6 which has 370 hp packed in a harmonious shape.

For this reason, we have developed two sports exhausts for the KIA Stinger at once: the first exhaust system consists of the two rear silencers with exhaust flap (with ECE approval) and a link pipe whereas the second one is composed of a front silencer as well as two rear silencers.

We have opted for the „Quattro“-version (rear silencer with 2 x exit Ø 63 mm LH + RH) as tailpipe variation for both exhausts because they precisely fit the existing standard rear apron.

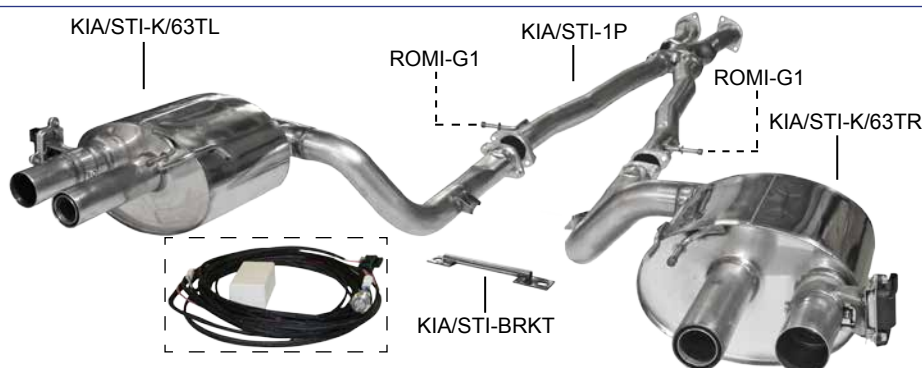

Mounting the BASTUCK sports exhaust will have a positive effect anyway: besides the appearance and the typical sonorous sound it also provides 10.5 KW and 9 NM\*) increased power.

Optionally, we also provide an additional 200-cells performance secondary catalyst in metal, a replacement pipe for the secondary catalyst and, for the version without exhaust flap, a replacement pipe for the front silencer (without approval each).

- Sports exhaust optionally with electrical exhaust flap (with ECE approval, BASTUCK development)
- tailpipe variation: „Quattro“ 2 x Ø 63 mm LH + RH for series rear apron
- performance increase of up to 10.5 KW and 9 NM\*)

## SPORTS EXHAUST

| KIA STINGER 3.3 T- GDI V6 | Sports exhaust behind catalyst with exhaust flap | Rear silencer with 2 x Ø 63 mm exit LH+RH for series rear apron |

\*)ref. vehicle: KIA Stinger 3.3 T-GDI V6 272 KW / 6000 rpm, input measurement: 264 KW / 481 NM, measured with sports exhaust: 274,5 KW / 490 NM, increase of up to: 10,5 KW / 9 NM

AG/FB-EP

\* Die Fernbedienung ist bei den Endschalldämpfern mit Abgasklappe enthalten!  
 \* La télécommande est comprise lors de l'acquisition des silencieux arrière avec clapet d'échappement!

\* The remote control is included when purchasing the rear silencers with exhaust flap!  
 \* El telemando está incluido al adquirir los silenciadores traseros con válvula de escape!

**Hinweis:**  
Eine Verwendung des Endschalldämpfers alleine ohne das Verbindungsrohr ist nicht möglich!

**Remarque:**  
Il n'est pas possible d'utiliser le silencieux arrière seul, sans tuyau de liaison!

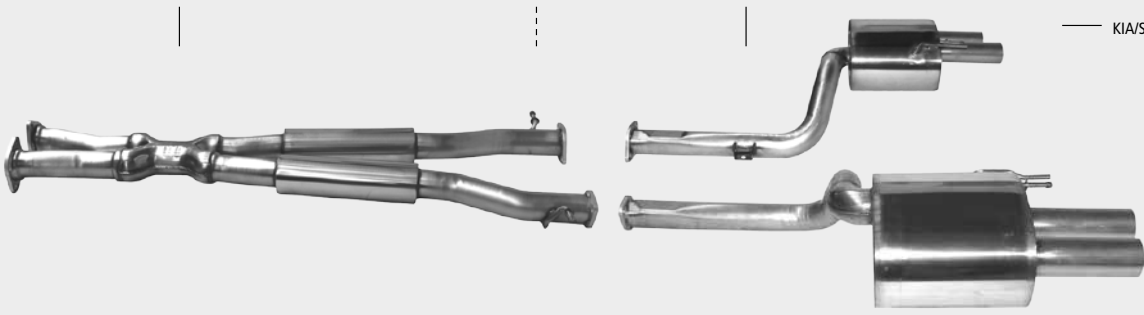

**Attention:**  
It is not possible to mount the rear silencer on its own without using the link pipe!

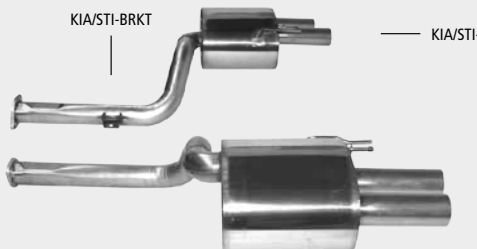

**Nota:**  
No es posible montar el silenciador trasero individualmente, sin utilizar el tubo de conexión!

- **Hinweis:**  
Die Endschalldämpfer können auch alleine montiert werden.
- Remarque:**  
Les silencieux arrières peuvent être montés seul.
- Attention:**  
The rear silencers can be monted on their own.
- Nota:**  
También es posible montar los silenciadores traseros individualmente.
