

## MGA Twin Cam: Thermostat housing

- Set of 3 parts
- BASTUCK reproduction
- High-value aluminium cast
- reasonable price

Owners of a MGA Twin Cam can breathe a sigh of relief: we have now added a new thermostat housing, which used to corrode in the past, to our range of products. Although there are not many MGA Twin CAM vehicles in general, we decided to take this step to have these parts available in our assortment as we know they are urgently needed by some of our customers. We provide the thermostat housing as a set of 3 components consisting of a cover, housing and a seal. New mold tools have been manufactured only for this purpose.

| Art.-No.     | Name  | Price EUR |
