

Triumph: retaining bracket plug-in side screens

- immediately available
- high-value BASTUCK Classic quality
- true to original reproduction

In previous years, the restoration of classic Triumph TR2-3 faltered at the latest when replacing the brackets for the plug-in side screens. They had not been available anymore for a long time, not even as used parts. Therefore, we have reproduced the parts which are no longer available true to original. We first cast them in brass and then equipped them with a high-grade chrome finish, so they are equivalent to the original parts in terms of quality.
