BASTUCK CLASSIC PRODUCT INFORMATION

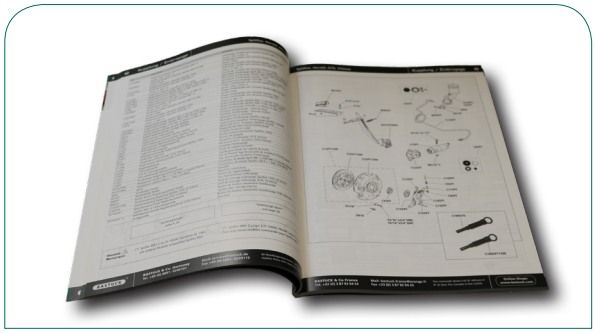
EDITION 25/18 | 18.06.2018

New Bastuck catalogue for Triumph Spitfire, GT6, Herald and Vitesse available

The 2018 edition of the popular BASTUCK catalogue for Triumph Spitfire, GT6, Herald and Vitesse is now available. On 132 pages all available parts and accessories as well as lots of important additional information has been gathered. The catalogue can be send to you on request, but is also available for immediate download.

Our complete Classic range for the Triumph Spitfire, GT6, Herald and Vitesse is now presented in the new catalogue. Once again we have added some parts and refined our assortment in certain areas. Meanwhile, there are more than 2.200 parts only for the brand Triumph which we have reproduced with specifically developed and designed tools because they were no longer available and did not meet the quality requirements.

On our website the catalogue is available for download as PDF file (link). In the BASTUCK online shop (link) all parts from the catalogue are specified as well.



- **Catalogue is available free of charge**
- **Also available for download online**
- **2.200 parts for the brand Triumph only**
